Executive Summary

Final-year Computer Science and Engineering student with a strong interest in software development and building practical, real-world solutions. Experienced in taking projects from concept to implementation, with hands-on experience in web applications, real-time systems, and data-driven solutions. Passionate about problem-solving, learning new technologies, and developing reliable software that creates meaningful impact.

Experience

Web Developer Intern, Magnion Technology Factory – Tamil Nadu, India Mar 2026 – Jul 2026

- Maintained the Prestige Clubs Resorts website over a 2-month internship, improving responsive UI and updating content across the site
- Tested and refined website responsiveness across 3 device types (mobile, tablet, desktop), improving UI consistency

Education

Mount Zion College of Engineering and Technology, B.E. in Computer Science and Engineering 2023 – Present

- CGPA: 6.65/10

Projects

GoKart Telemetry github.com/Naveen-2005205/Go-kart-Telemetry-Flutter

- Built a real-time kart telemetry system with Flutter and React to monitor live speed, GPS position, lap timing, and throttle/brake parameters.
- Tools Used: Flutter, Dart, React, Node.js, Express.js, SQL Server, REST API

Expense Tracker github.com/Naveen-2005205/Spend-Wise

- Developed a responsive expense tracking web application for managing daily expenses, categorizing transactions, and calculating total spending using client-side storage.
- Tools Used: HTML, CSS, JavaScript, LocalStorage

Feedback Management System github.com/Naveen-2005205/Feedback-System

- Developed a college feedback, grievance, and helpdesk management system with separate student and admin workflows, real-time analytics, ticket generation, and feedback tracking.
- Tools Used: PHP 8, MySQL, Bootstrap 5, AJAX, PHPMailer, HTML5, CSS3, Chart.js

Technologies

Languages: Python, JavaScript, Dart, SQL

Frontend: HTML, CSS, React.js

Backend: Node.js, Express.js

Mobile: Flutter

Databases: MySQL, Microsoft SQL Server

Libraries Frameworks: Leaflet, Tkinter, Pillow
